Praktikum 1: Membuat Project Flutter Baru

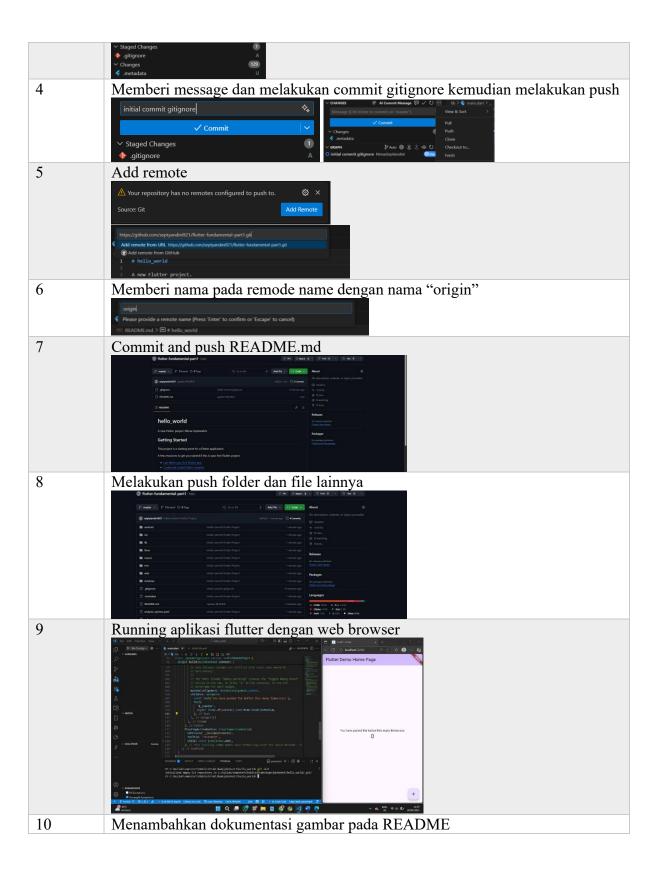

Langkah		Praktikum		
	Buka VS Code, lalu tekan tombol Ctrl + Shift + P maka akan tampil <i>Command Palette</i> , lalu ketik Flutter . Pilih New Application Project .			
2	Kemudian buat folder sesuai style laporan praktikum yang Anda pilih. Disarankan pada folder dokumen atau desktop atau alamat folder lain yang tidak terlalu dalam atau panjang. Lalu pilih Select a folder to create the project in .			
3	Buat nama project flutter hello_world seperti berikut, lalu tekan Enter . Tunggu hingga proses pembuatan project baru selesai.			
4	Jika sudah selesai proses pembuatan project baru, pastikan tampilan seperti berikut. Pesan akan tampil berupa "Your Flutter Project is ready!" artinya Anda telah berhasil membuat project Flutter baru.

Praktikum 2: menjalankan aplikasi ke perangkat fisik (device Android atau iOS)

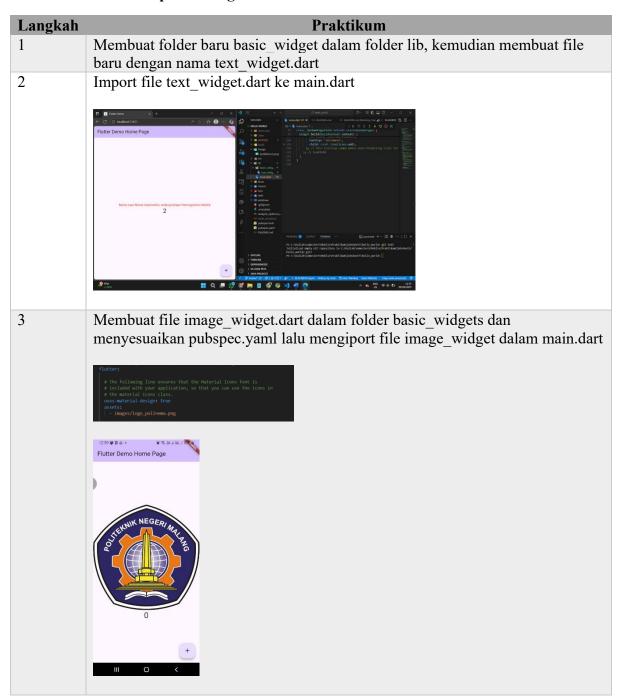

Praktikum 3: Membuat Repository GitHub dan Laporan Praktikum

Langkah	Praktikum	
1	Membuat repository baru dengan nama "flutter-fundamental-part1" General Owner * Repository name * @ weplyandini221 * / flutter-fundamental-part1 Onto fordamental-part1 Onto fordamental-part1	
2	Melakukan inisialisai git init pada terminal PS C:\Kuliah\semester5\Moblie\Praktikum\jobsheet5\hello_world> git init Initialized empty Git repository in C:/Kuliah/semester5/Moblie\Praktikum/jobsheet5/hello_world> PS C:\Kuliah\semester5\Moblie\Praktikum\jobsheet5\hello_world>	
3	Menambahkan .gitignore pada staging area untuk initial commit	

Praktikum 4: Menerapkan Widget Dasar

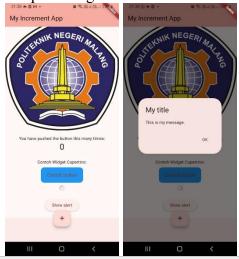

Praktikum 5: Menerapkan Widget Material Design dan iOS Cupertino

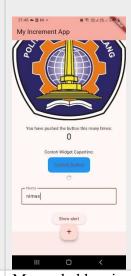

Dialog widget pada flutter memiliki dua jenis dialog yaitu AlertDialog dan SimpleDialog. Ubah isi kode main.dart

5 Menambahkan input textField

6

Menambahkan input date time picker
